

Presstek 52DIX

DPF and VIM Technologies

DPF are proud to be authorised distributors of **VIM** quality printing plates and products.

VIM is a leading manufacturer of imaging and printing products that expand the profitability of offset printing by providing superior quality alongside higher cost efficiency.

The company focuses on process-less, daylight operated plate technologies, eliminating the need for chemical plate development, which can usually make offset printing expensive and labor intensive.

VIM have over 30 years experience in digital imaging and printing technologies, bringing new ideas and superior quality products to the printing industry.

DPF believe that utilising **VIM's** superb plate technologies in partnership with our quality DI presses, provides the best possible all round solution for your print business.

QUALITY

DPF deal worldwide in only the very best pre-owned Digital Presses from the very best names such as **Heidelberg, KBA, Presstek** and more.

All **DPF** presses are fully re-furbished inside and out, worn or damaged components, whether electrical or mechanical, are replaced with **NEW** and all **DPF** Digital Presses are supplied with a **BRAND NEW, FULLY CALIBRATED, RIP** system.

PLUS when you purchase with **DPF** you receive full, in-depth, expert training on-site, covering all aspects of the operation and maintenance of your press. Crucial to ensure that not only is your **DPF** DI press the best that it can possibly be, but you too are **"UP-&-PRINTING"** faster and smarter & producing your best, most profitable work ever, right from day one.

SALES

At **DPF** we know that the decision to purchase a used Digital Press is not made lightly.

It's a big decision and the sheer amount of dealers, press models and price options available may be confusing and making the whole process appear daunting to say the least...

You just need to know that you are dealing with the right people, that you are getting the best advice and that you can buy with confidence, secure in the knowledge that you are making the right decision for your business and that the costings are right too.

You can rest assured...

DPF remove the doubt, worry and stress that may normally be associated with purchasing a pre-owned Digital Press.

- Highest quality pre-owned digital presses
- Huge stock of spare parts
- Expert staff & engineers
- Extensive pre-press & print experience
- Rapid emergency response times

SERVICE

All **DPF** presses come with **fully tailored warranty packages** specifically designed to suit your needs. Plus we can continue to offer support and advice way beyond your initial warranty period should you choose.

After sales support is provided via telephone, skype and webcam, saving you a huge amount of money and time should you need help to diagnose the root of any problem.

If a press problem requires an onsite visit, **DPF expert engineers** are fully equipped and ready to call usually within **24-48 hours** within the UK.

DPF hold stocks of many spare parts onsite and yearly service contracts are available to keep your press in optimum condition and minimise the impact of any unexpected repair costs.

Due to our extensive knowledge of all aspects of pre-press & print processes, **DPF** can also offer fully tailored workflow solutions designed for your specific requirements, from simple job processing workflows, to fully integrated imposition, proofing and production options.
